

AMIT KUMAR

Python Developer | AI/ML Engineer | Full Stack Engineer | Data & Quality Systems

Phone: +91 8510840825 | Email: amit.1drona@gmail.com | LinkedIn: linkedin.com/in/amit-chauhan-678351188 |

Portfolio: anshu-ui.github.io/amit-portfolio

PROFESSIONAL SUMMARY

Software engineer with 4+ years of experience across Python, AI/ML, full-stack development, SQL-backed applications, and quality engineering. Built and launched ReferralMe, a referral-first hiring platform with 500+ users, using React, TypeScript, Node.js, PostgreSQL, and Firebase. Developed an AI-based leather defect detection solution using Python, OpenCV, and deep learning concepts. Strong fit for Python Developer, AI Engineer, Data Engineer, and applied Data Science roles requiring product delivery, automation, APIs, SQL, computer vision, and cross-functional execution.

CORE SKILLS

Python / AI	Python, OpenCV, computer vision, ML/deep learning concepts, AI inspection systems, automation, data preprocessing
Backend / Data	Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, Firebase, SQL, API integration, authentication
Frontend	React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, responsive dashboards
Tools	Git, GitHub, Postman, Jira, CI/CD, Firebase, deployment workflows
Domain	Quality systems, root-cause analysis, FMEA, APQP, PPAP, SPC, Lean Manufacturing, 5S, Kaizen

PROFESSIONAL EXPERIENCE

Founder & Full Stack Engineer | ReferralMe | Jun 2025 - Present

- Built and launched a referral-first hiring platform serving 500+ users using React, TypeScript, Node.js, PostgreSQL, and Firebase.
- Designed authentication, dashboards, job/referral workflows, and deployment-ready product features.
- Led product strategy, feature prioritization, debugging, and user-focused iteration across the full software lifecycle.

Project Coordinator & Full Stack Developer | Hiked.in | Aug 2023 - Jun 2025

- Delivered onboarding, chatbot, live chat, and scheduling modules in Agile product cycles.
- Improved UI performance by 30% and reduced production issues by 20% through debugging, QA, and release coordination.
- Coordinated cross-functional delivery while contributing to frontend/backend implementation and issue resolution.

Quality & Machine Learning Engineer | Autoliv India Pvt. Ltd. | Jun 2021 - Aug 2023

- Developed an AI-based leather defect detection solution using Python, OpenCV, and deep learning concepts.
- Worked on visual inspection, defect classification, quality analytics, and manufacturing process improvement.
- Led a quality team of 15 engineers and improved quality outcomes through root-cause analysis and standardization.

Quality Engineer | Aditya Auto Products Pvt. Ltd. | 2020 - 2021

- Performed inspections, process audits, RCA, and continuous-improvement initiatives for manufacturing quality.
- Used quality tools and structured problem solving to reduce defects and support stable production processes.

Mechanical Engineering Intern | Maruti Suzuki, Manesar | Jan 2019 - Jul 2019

- Gained hands-on exposure to automotive manufacturing, production planning, quality control, and shop-floor operations.

SELECTED PROJECTS

ReferralMe: Full-stack referral hiring platform with user workflows, dashboards, authentication, database-backed features, and production deployment.

Leather Defect Detection: Computer-vision inspection system using Python and OpenCV to identify quality defects in leather components.

Portfolio Website: Responsive React portfolio showcasing software projects, engineering background, and product work.

EDUCATION & ACHIEVEMENTS

B.Tech, Mechanical Engineering - Dronacharya College of Engineering (2015 - 2019)

Founder, ReferralMe | Organizer, Google Developer Groups Gurugram | 3rd Rank - National Creativity Aptitude Test (NCAT)
